Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner called applicant's representative to request that claims 19-25 canceled. It was pointed out that claim 21 could still be rejected over the patent to Howard, but that claims 1-3, 6 and 8-14 would be allowed if claims 19-25 were canceled. Additionally, the amendments to the specification (underlined portions) would be deleted from the after-final amendment so as to avoid any possibility of new matter. On January 23, 2007, applicant's representative agreed to the changes..
